

## Letter of recommendation

By this letter of recommendation we want to emphasize the good collaboration with Etalon Security SRL.

The passenger transport services provided for the movement of our employees in team-building activities fully satisfy the requirements requested by our company.

The professionalism of the drivers, the experience on the tourist routes as well as the responsible attitude are noticeable.

The buses and minibuses provided have the necessary equipment for a comfortable and safe ride.

The transport managers responded promptly to our sometimes-late requests, and approved the supplementation of trips to tourist attractions.

We appreciate the quality, seriousness and promptness of the services offered by ETALON SECURITY SRL, therefore we recommend it as a business partner in this field.
